

SCIENCE

Science allows students to explore and study various aspects of Biology, Physics and Chemistry using real world contexts. Students will develop skills to investigate strategies and possible solutions to address major challenges we are facing now and, in the future.

PREREQUISITES: NIL

WHAT WILL YOU LEARN?

01. Understand cellular processes and why and how infectious diseases spread.
02. Expand your knowledge of atomic structure and electrical circuits.
03. Expand your knowledge of important chemicals and chemical reactions.

Transferable Skills

- Using a range of communication formats to express ideas logically and fluently
- Having a range of IT skills
- Analysing facts and data and testing assumptions
- Developing creative, innovative and/or practical solutions
- Collaborating and contributing to team results

Assessment

Assessment	
Stage I	75% Inquiry Folio; 25% Collaborative Inquiry
Stage II	N/A

VOCATIONAL PATHWAYS

- Certificate II Agriculture
- Certificate III in Wine Industry Operations (Viticulture)
- Certificate IV in Veterinary Nursing

TERTIARY PATHWAYS

- Bachelor of Science (Honours)
- Bachelor of Science (Marine Biology)
- Undergraduate Certificate in Technology (Defence)

CAREERS

- Laboratory Technician
- Nurse- enrolled/registered
- Medical Scientist
- Toxicologist
- Civil Engineer

SACE STAGE 1 | 10 CREDITS
ONE SEMESTER

SACE STAGE 2
